

HIGH PERFORMANCE
COMPOSITE SHOWER WALLS

Chello™

SMC Wall Panels

Experience the premium look
and feel of Chello SMC
wall panels and say goodbye
to tile maintenance!

ABOUT CHELLO WALL PANELS

SMC wall panels are a premium, solid shower wall system designed to provide the look of tile without the maintenance. Unlike traditional tile, there is no grout to scrub or reseal, making cleaning quick and easy.

Inside, the panels are reinforced with fiberglass, creating a strong, rigid wall that stands up well to everyday use.They're built to handle moisture, resist impacts, and provide years of dependable performance in the bathroom.

This unique composite material is 100% waterproof (sealant required). Just follow the installation steps, and you are guaranteed a wall that looks great, and will last for years.
